

To set up HTC Email Powered by Google™ in an existing BlackBerry Internet Service account (PC)

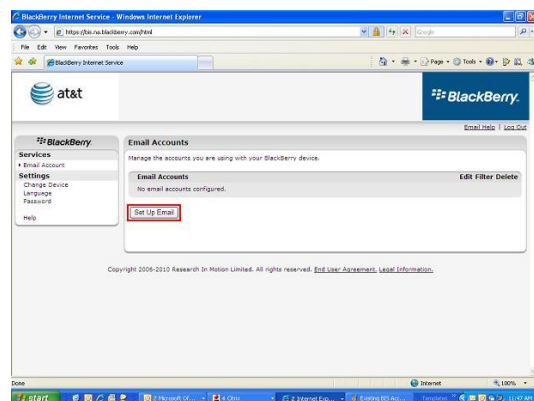

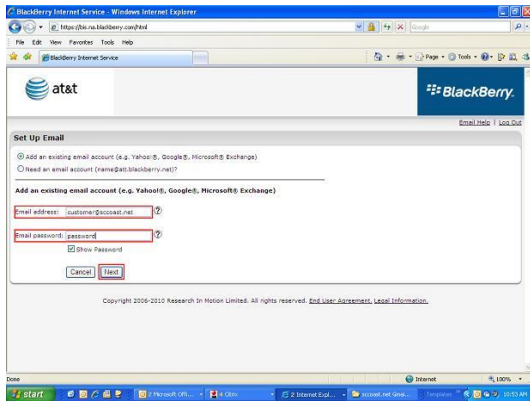

1. Using a computer, open a web browser (Internet Explorer, Mozilla Firefox, Safari, etc...). Go to <http://www.att.com/blackberrystart>

2. Enter the customer's **BIS account** 'Username' & 'Password' (**not** email username & password) and click 'Log In'.

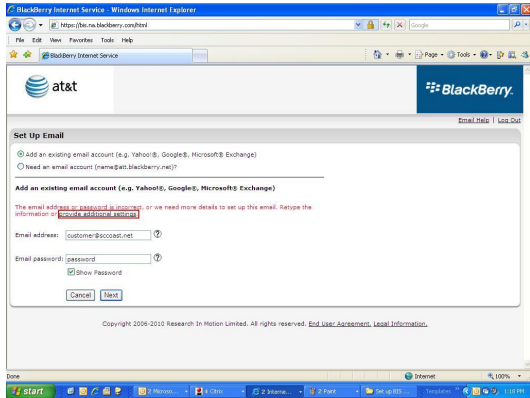

3. Enter the customer's scoast.net email address and email password. Then click 'Next'.
(or... →)

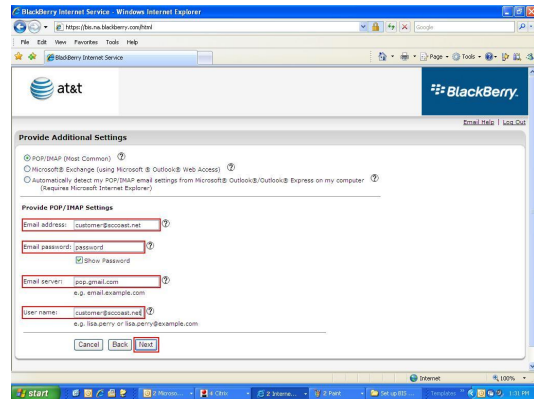

click 'Set up Email' if the customer already has other email addresses set up.

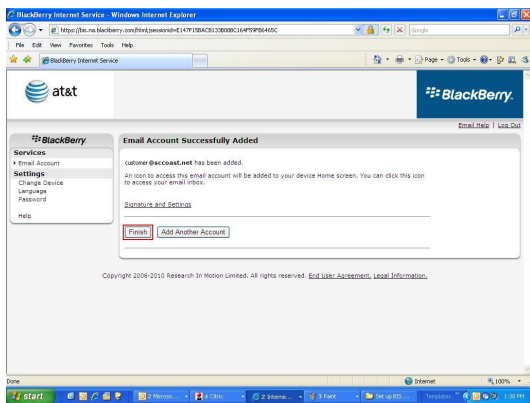

4. After processing, click 'provide additional settings' when the error is received.

5. Enter customer's email address & password. Also 'Email server' as pop.gmail.com and the customer's full email address as the 'User name'. Then click 'Next'.

6. The following screen confirmation screen should display. To complete email setup, click 'Finish'

7. Email setup has been completed.
